

Live or die

*You know you've got to let us know
Spill the beans and you can go
If you tell a dirty lie,
We'll cut your throat n' you will die!
It's so easy to decide!
Make it look like suicide*

*You're full of lies, lies, lies!
You only want to terrorise!
Oh, Mortadella's days are few
Cos, we know just what to do
So, come on and let us know
Spill the beans and you can go*

*You could live or you could die now!
You could live or you could die now!
So turn your back and disobey her!
Just tell the truth and just betray her!*

So, come on and let us know

*This situation cannot be
You know we cannot set you free
Or is this where you want to be?
The time is ticking very fast now!*

*Come on and let us know!
Should we kill you with this blow?*
